# FAQs

## What is myRentokil?

myRentokil is a unique online pest control reporting system designed and built by Rentokil. It is easy to use and delivers real-time information, facilitating a proactive approach to pest prevention and control. Access is available 24/7 from wherever you are, providing you with the peace of mind that you can view and analyse your pest control data whenever you want.

## How do I get myRentokil?

To talk to us about upgrading your PestNetOnline system or to find out more about myRentokil, please contact us on 800-PESTS (73787)

## How do I know that my data is safe?

myRentokil has been designed as a secure site, ensured by:

- A password protected system with controlled access lists
- Encrypted communications
- Data is managed at a secure data center with an established disaster recovery plan

## What are the system requirements for myRentokil?

myRentokil is an online application that does not require any software to run it. You simply need an internet connection and a supported web browser. Web browsers that are supported include Google Chrome™, Internet Explorer ®8 and above, and Safari®. Firefox® is not supported.

## How can myRentokil help with my audit requirements?

There is a lot to consider when preparing for audits and having instant access to key information to manage and prioritise risks to your business is a critical activity. Use myRentokil to help satisfy the needs of a range of auditing bodies and ensure your company complies with necessary legislation and standards.

## How much does myRentokil cost?

Each myRentokil site is surveyed and priced individually. A representative can discuss this with you in more detail. If you would like further information on this subject, please contact us on 800-PESTS (73787)
